## CAREER OBJECT

*As a recent graduate with a strong foundation in web development, I am excited to embark on my career as a full-stack developer. I have hands-on experience with front-end technologies such as HTML, CSS, and JavaScript, and I am eager to expand my skills by mastering React.js, Next.js, and Node.js. My goal is to contribute to building dynamic, scalable web applications by combining my knowledge of both front-end and back-end technologies. I am committed to continuous learning and am passionate about staying up-to-date with emerging trends in full-stack development. I am seeking an entry-level position where I can grow, collaborate with a dynamic team, and make a meaningful impact in creating innovative web solutions.*

## EXPERIENCE

### Associate Data Analyst

**Quantanite**

📅 March 2021 – July 2023        📍 Mirpur 14

- Content moderation is a part of social media management in which a content moderator handles incoming messages, comments, and other content generated by third parties.
